

FOOD FOR THOUGHT

THE DEVELOPMENT AND EVOLUTION OF THREE OPEN TEXTBOOKS

WEDNESDAY, MARCH 6
12:30 PM - 1:30 PM

PRESENTED BY: ERIKA RAM

With the rapid development and increasing accessibility of generative AI tools, there's a heightened demand for AI and Machine Learning (ML) literacy among students from diverse fields. Erika's open education book empowers educators of all skill levels to teach AI concepts and their societal impacts. Structured around key questions educators face, it covers foundational AI concepts, ethical considerations, and practical applications, blending theoretical insights with real-world examples.

PRESENTED BY: AMY GOLDLIST

Welcome to the dynamic world of Business Data Analytics, where raw information transforms into actionable insights, driving strategic decisions and propelling organizations to unprecedented heights. In this book, we embark on a journey through the intricate landscape of data, unveiling its power to revolutionize the way businesses operate, compete, and thrive in the digital era.

PRESENTED BY: JULIA ALARDS-TOMALIN

For the past 5 years, Julia has been collaborating with students and faculty members across BCIT to co-create an Open Textbook entitled Buds, Branches and Bark: A Guide to Winter ID in the Pacific Northwest. In this session Julia will share her learning journey with you and highlight the evolution of the book from its drab first edition to the fab third edition, which was just released in December 2023.

LOCATION: IN THE LIBRARY SUMMIT CENTRE & VIA ZOOM
PLEASE SEE THE LOOP FOR MEETING LINK.
