

Open Educational Resources (OER) Grants

Regular faculty can apply for up to **\$4000** in funding to create OER or up to **\$2000** to adapt existing OER!

In Spring 2020, Statistics Canada collected data from over **100,000** postsecondary students reporting on the impacts of COVID-19.

48% of students with a job reported either losing their job or being temporarily laid off

Results from a 2017 study of BC postsecondary institutions, including KPU, showed that 54% students did not purchase a required textbook at least once. Study after study, including at KPU, has also shown that students have achieved the same or better outcomes when using OER.

Adapt

- Update or localize existing textbooks
- Incorporate interactive components through H5P applications
- Develop ancillary resources (such as question banks), including collaborating with students through open pedagogical practices

Create

- Author new open textbooks in areas of need
- Create open courseware, including videos, lecture slides, learning activities, and more
- Establish open access journals

Applications are now open and will be accepted until **September 1, 2020**.

To apply and for more information visit kpu.ca/open/grants

OER are materials that are freely accessible and openly available for anyone to use, re-mix, improve and redistribute. This could include images, videos, interactive simulations, worksheets, and of course textbooks.

For more information or support with open educational practices and OER, please contact the Office of Open Education: www.kpu.ca/open/connect
